Thriving in a cold and infinite universe where everything is done better, cheaper, and faster by robots

Stick It to the Robot

Here's the moment you've been waiting for: you're face to face with the robot who took your job. What would you like to say?

Okay, great.

Now that you've got that out of your system, what would you like to ask? What do you think you can learn from her/him/it?

BONUS:

What jobs do you think *you* can steal from a *robot*?
