Thriving in a cold and infinite universe where everything is done better, cheaper, and faster by robots

A Wall in Your Way

There's something standing in between you and what you want.

Rather than dismissing it as an obstruction, evaluate it as a device that you yourself have put in place.

Why is it there?

Can you see the wall or is it still undiscovered to you?

It couldn't exist unless it benefited your survival in some way.
What is it doing *for* you?
How has it *helped* you?

Do you still have more to gain from the wall in your way?

Whether or not you are ready to reach the other side, give your thanks to the wall for its role in supporting you.

Its work will soon be done.
